

I listen to the radio station KLOVE every day. Many of the people who live near me enjoy listening to KLOVE, since there we live in a semi-rural area. I listen to it on 90.3 from North Branch, Minnesota. If it was displaced by an LPFM broadcaster, we would not listen any longer. I also know truckers who listen to KLOVE and enjoy the continuity of hearing the same station as they travel as their loved ones are at home. I believe that KLOVE and other radio stations should be left as they are. They are serving a vast radio community now, and don't need to be forced off the air.
